

14B037 Molecular Plant Sciences - Applied Aspects

Fridays 11:15-13:00 in Room 0019 (Sciences III)

Responsables: T. Fitzpatrick (Theresa.Fitzpatrick@unige.ch) and R. Ulm (Roman.Ulm@unige.ch)

21.09.2018 (8.45-15.00 at Agroscope, Changins)	Arnold Schori (Agroscope Changins-Wädenswil ACW) Selected plant breeding activities and field visit at Agroscope
28.09.2018 (4h)	Denis Lespinasse (Syngenta) Transgenic approaches in commercial plant breeding & Genetic knowledge in commercial plant breeding (9:15–11:00 room 2024, 11:15–13:00 room 0019)
05.10.2018	-
Tue (special) 09.10.2018	LSSS: Pamela Ronald (UC Davis) Serving up science: plant genetics and the future of food (11:00 room A150)
12.10.2018	- (Dies academicus)
19.10.2018	-
26.10.2018	-
02.11.2018	Lucius Tamm (FiBL) Organic farming: optimizing agricultural productivity while reducing environmental impacts
09.11.2018	Jean-Luc Wolfender (University of Geneva) Identification of novel natural bioactive products using metabolomics: concepts, methods and implication in plant fitness studies (Part I)
16.11.2018	Jean-Luc Wolfender (University of Geneva) Identification of novel natural bioactive products (Part II)
23.11.2018	Teresa Fitzpatrick (University of Geneva) Literature Club: Biofortification
30.11.2018	Roland Beffa (Bayer CropScience) Opportunities for innovation in modern cropping systems
07.12.2018	Fabrizio Arigoni (Nestlé) Plant science approaches to improving the quality of food products
14.12.2018	-
21.12.2018	-
