

14B037 Molecular Plant Sciences - Applied Aspects

Fridays 11:15-13:00 in Room 0019 (Sciences III)

Responsables: T. Fitzpatrick (Theresa.Fitzpatrick@unige.ch) and R. Ulm (Roman.Ulm@unige.ch)

18.09.2020	-
25.09.2020 (8.45-15.00 at Agroscope, Changins)	Etienne Bucher (Agroscope Changins-Wädenswil ACW) Selected plant breeding activities and field visit at Agroscope
02.10.2020	
09.10.2020	- (Dies academicus)
16.10.2020	
23.10.2020	Jean-Luc Wolfender (University of Geneva) : Identification of novel natural bioactive products using metabolomics: concepts, methods and implication in plant fitness studies (Part I)
30.10.2020	Jean-Luc Wolfender (University of Geneva) : Identification of novel natural bioactive products (Part II)
06.11.2020	
13.11.2020	
20.11.2020	Sebastian Soyk (University of Lausanne): Plant domestication
27.11.2020	Roland Beffa (Bayer CropScience) : Opportunities for innovation in modern cropping systems
04.12.2020	Fabrizio Arigoni (Nestlé) : Plant science approaches to improving the quality of food products
11.12.2020	Teresa Fitzpatrick (University of Geneva) : Literature Club: Biofortification
18.12.2020	Lucius Tamm (FiBL) : Organic farming: optimizing agricultural productivity while reducing environmental impacts
