

14B035 - Molecular Plant Sciences-Basic Research

Fridays 11:15-13:00 in Room 0019 (Sciences III)

Coordinators: T. Fitzpatrick (Theresa.Fitzpatrick@unige.ch) and R. Ulm (Roman.Ulm@unige.ch)

22.09.2023	Michael Hothorn: Plant membrane signal transduction I
29.09.2023	Michael Hothorn: Plant membrane signal transduction II
06.10.2023	Mathieu Perret: Phylogenetic insights on plant diversification
13.10.2023	- (<i>Dies academicus</i>)
20.10.2023	Yamama Naciri: A population genetics insights into plant speciation
27.10.2023	Luis Lopez-Molina: Control of seed germination I
03.11.2023	Luis Lopez-Molina: Control of seed germination II
10.11.2023	Teresa Fitzpatrick: Micronutrients and their importance to plants I
17.11.2023	Teresa Fitzpatrick: Micronutrients and their importance to plants II
24.11.2023	Marie Barberon: Plant nutrition and root development I
01.12.2023	Marie Barberon: Plant nutrition and root development II
08.12.2023	Roman Ulm: Plant photomorphogenesis I
15.12.2023	Roman Ulm: Plant photomorphogenesis II
22.12.2023	-
