

# 14B037 Molecular Plant Sciences - Applied Aspects

Fridays 11:15-13:00 in Room 0019 (Sciences III) with the exception of \* see schedule

Responsables: T. Fitzpatrick (Theresa.Fitzpatrick@unige.ch) and R. Ulm (Roman.Ulm@unige.ch)

20.09.2024* (9:30-15:45 at Agroscope, Changins)	<b>Etienne Bucher (Agroscope Changins-Wädenswil ACW): Selected plant breeding activities and field visit at Agroscope</b>
27.09.2024	-
04.10.2024	-
11.10.2024	- <i>Dies academicus</i>
18.10.2024	-
25.10.2024	-
01.11.2024	<b>Teresa Fitzpatrick (University of Geneva): Biofortification (Journal club)</b>
08.11.2024	<b>Sebastian Soyk (University of Lausanne): Plant domestication</b>
15.11.2024	<b>Nawaporn Onkokesung (Bayer): Unlocking the future of sustainable crop protection</b>
22.11.2024* (9.15 – 13.00 at CMU)	<b>Jean-Luc Wolfender (University of Geneva): Identification of novel natural bioactive products using metabolomics: concepts, methods and implication in plant fitness studies</b>
29.11.2024	<b>Bruno Studer (ETH Zürich): Molecular Plant Breeding</b>
06.12.2024	<b>Fabrizio Arigoni (Nestlé): Plant science at Nestlé and advances in coffee breeding.</b>
13.12.2024* (9:15-13:00)	<b>Christopher Sauvage (Syngenta): Genetics from domestication to breeding and beyond – applications in academic and private R&amp;D sectors</b>
20.12.2024	-
